

Welcome to the Healing Arts Center

Welcome and thank you for your interest in becoming an integral part of the Healing Arts Center. We are creating a synergistic community of like-minded and heart-connected health and healing practitioners.

A significant part of our mission is to build a bridge between standard medical care and complementary healing therapies. For this reason, we require those who practice within the space of the building to have appropriate training and credentials as basis for the work they do.

We have found that formal training becomes transformed by each individual into a practice that is a unique healing approach. Therefore, we want to know who you are, what your training has been, and what it is you *really* do.

Please give us a resume indicating your training and professional activities in the healing arts and include a short description of what unique approach you have to the healing process.

Please be sure to include your name, your business or professional name, address, phone number and any other information you feel you would like to share with us. Once we have received and reviewed this information we will schedule an informal interview and tour of the facility to get acquainted.

Please return your information to:

We are also networking with healing providers of all backgrounds in the Verde Valley area and intend to have periodic meetings, where we can get to know each other and become aware of those with special talents and interests. So even if you do not have interest in becoming one of the Healing Arts Center on-site providers, you may want to give us your name and information, so we can keep in touch when we facilitate these networking events.

Thank You. We look forward to hearing back from you!
